

EVENT REPORT

Title of Event: D.T3.12.1

2. Workshops: Qualification of public places for the installation of the CO2 Apocalypse Clock by public authorities and public officials

Date & Place of Event:	19./20./21.01.21, smaller working groups (due to pandemic situation) Pfaffenhofen
Partner/s Involved:	PP09 Citizen Cooperative Pfaffenhofen
Relation to Project:	Meeting with public authorities and stakeholders for discussion to realise the CO2-Apocalypse-Clock a pilot action of PP09 in public areas
Topics tackled and description of links to deliverables/outputs	<ul style="list-style-type: none"> - Looking for a possible location for the installation of a CO2 Apocalypse Clock <p>The citizens' results on the CO2 apocalypse clock have been provided in advance to the meetings of the respective individual small groups, these small groups. This ensured an active role for the citizens. The public authorities and officials as well as other stakeholders took the information positively and constructively and contributed their know-how to find suitable publicly accessible locations for the installation of a CO2 Apocalypse Clock. Meeting and involvements of mayors, city council member and city builder and BEG-responsible took place 19./20./21.01.21 took place.</p>
Expected effects and follow-up, findings/conclusions that will contribute to achieving further project results	<ul style="list-style-type: none"> - Findings: <p>Projections of images of 2-dimensional CO2 apocalypse clock on public buildings were discarded.</p> <p>The set-up study of the 2-Dimensional CO2 Apocalypse Clock was found to be good.</p> <p>Site visits and others with representatives of the city council and the mayor were carried out.</p> <p>The Pfaffenhofen public utility company was approached as to whether certain locations were suitable with regard to electricity and media supplies. Documents were examined.</p> <p>Because of vandalism, certain locations were ruled out.</p> <p>At the end of the work, the Arlmühlen site was identified as a possible installation site for the CO2 Apocalypse Clock.</p>

	<p>However, certain technical obstacles still need to be qualified more precisely as well as then eliminated.</p>
