

EVENT REPORT

Title of Event: Actions against climate change with the climate protection concept 2.0

Date & Place of Event:	City hall, seminar room; 03/2021
Partner/s Involved:	PP08, SWP PP09, BEG
Relation to Project:	Revision of the climate project plan in cooperation with the citizen, responsible city officials, authorities and local stakeholders
Topics tackled and description of links to deliverables/outputs	<ul style="list-style-type: none"> - Verification of the actions decided upon in the preliminary actions - Lessons learned regarding the communications strategy in the city and region of Pfaffenhofen - Discussion regarding whether all necessary stateholder are identified with regard to achieving the targets for the Pfaffenhofen Climate Plan 2030 and how we are going to integrate these new players in the joint work for the revision of the SECAP - Generation von neuen Ideen für mögliche neue Maßnahmen, die entweder eine hohe Wirkung haben oder eine hohe Aufmerksamkeit erzeugen
Expected effects and follow-up, findings/conclusions that will contribute to achieving further project results	<ul style="list-style-type: none"> - In a further step, the city of Pfaffenhofen strengthened its commitment to climate protection by continuing the previous steps and milestones in the climate protection concept. The climate protection concept was launched in 2013 and the goals to be achieved by 2030 are 100% clean electricity from local production and halving CO₂ emissions to three tonnes per citizen. The aim is to successfully continue existing measures or to develop new measures and targets. The climate protection concept 2.0 and the city's own concept for adaptation to climate change are the two pillars of the Pfaffenhofen Climate Plan 2030.
