

DELIVERABLE D.T2.1.1

SITE PORTFOLIO MAZOVIA

Report describing site selected for
implementation of WPT2 activities

Version 1
5 2019

1. General data

Project partner name	Mazowieckie Voivodeship
Exact place Location	Grodzisk Mazowiecki, Batorego 23 Street, 52°6'1.574"N 20°37'44.336"E
Person(s) responsible for implementation	Katarzyna Jędruszczak, Magdalena Prządka – Głodek, Agnieszka Szuba, Dominik Antonowicz
Author the report	Dominik Antonowicz

2. Brief description of the locality and situation

The place identified by Mazovia for revitalization is the building the "Chamber of Tradition of the Warsaw Commuter Rail - Warszawska Kolej Dojazdowa (WKD)". The WKD which was established 90 years ago, is both a railway infrastructure manager and a carrier. It plays the role of a local rail connecting Warsaw with the cities of the Warsaw agglomeration.

The building is located in Grodzisk Mazowiecki, about 30 km from Warsaw. The object is located next to the Grodzisk Mazowiecki Radońska station, in the area belonging to WKD. Part of the building has a historical exposure of the carrier's activities, and a significant number of visitors are people in preschool and school as organized groups. The second part of the building is not used. In the opinion of the management board of WKD, there is a lack of a place where rail transport enthusiasts could meet and discuss the development of passenger transport in the region. The proposed facility would be very suitable for these purposes. . The combination of tradition, history and modernity gives great potential for the development of the object, including its adaptation to educational and cultural purposes. In the building that needs to be modernized (rebuilt) there could be a place for the WKD Chamber of Traditions, a multimedia part showing the modern face of the carrier, as well as a meeting place for railway

enthusiasts and hobbyists. The object could have a separate café section where people could drink coffee or eat something sweet. Small playground for children could be built around the building.

The building is the property of WKD, which is very interested in cooperation within the YOUMOBIL project.
