Partners overview

MEDVEDNICA
Park prirode
Nature Park

Public Institution Nature Park Medvednica, Croatia

The Public Institution Nature Park Medvednica is the management body of the protected area in a near vicinity of the City of Zagreb. Apart from the local inhabitants, the Park is under constant pressure due to the growing number of visitors that come from the city to enjoy the nature of Nature Park Medvednica. From its beginnings, the Institution has worked in carrying out awareness and education initiatives about the natural and cultural values of the Park and the importance of its conservation. It also puts great efforts in developing and implementing sustainable tourism management methods and tools. Public Institution Nature Park Medvednica was awarded in 2014 with the European Charter for Sustainable Tourism in Protected Areas and, through this process, it collaborated and

still collaborates with local stakeholders, ministries, research institutes and associations at national and international level. The Nature Park Medvednica is the Pilot Area in which CEETO project Action Plans will be implemented.

Nature Park Medvednica Pilot Area

Established in: 1981

Surface area: 18.000 ha

Municipalities: Zagreb County, Krapinsko – Zagorska County and Zagrebačka.

Main features: forests, grasslands, mountain streams. A ski resort is located in the centre of the Park.

Krajinski park Strunjan
Parco naturale Strugnano
Landscape Park Strunjan

Public Institute Strunjan Landscape Park, Slovenia

In 2009 the Slovenian government established the Public Institute Strunjan Landscape Park in order to protect the unique natural and landscape values of the Strunjan Peninsula. The institution is in charge of the protection, technical control and management tasks of the protected area. Half of its extension is protected under Natura 2000 schemes for the presence of seven animal species and seven habitat types of Communitarian interest. The objectives of the institution are to promote the sustainable development of the Park, to create new opportunities for the Park inhabitants and to provide an economic, social and cultural development of its local communities in order to strengthen the economic competitiveness of the area. Furthermore, they strive to promote activities that contribute to nature conservation and the integrated conservation of cultural heritage, and to maintain and preserve its unique landscape environment. Strunjan Landscape Park is the only protected area in Slovenia that contains a Marine Protected Area within its limits.

Strunjan Landscape Park Pilot Area

Established in: 2008

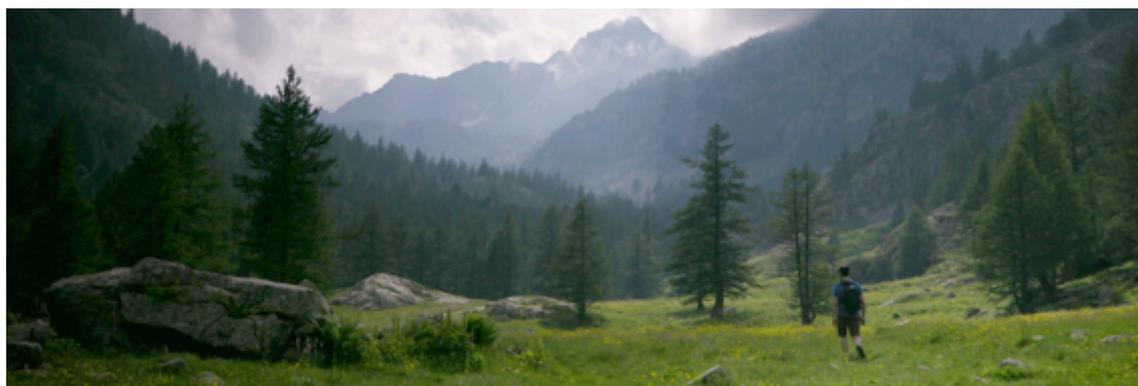

Surface area: 428.6 hectares

Municipalities: Piran, Izola

Main features: the Park embraces the longest stretch of natural seashore in the Gulf of Trieste, the highest flisch cliff on the Adriatic coast, the northernmost salt pans in the Mediterranean basin, the only marine lagoon in Slovenia and one of the most conserved cultural landscape on Slovenian coast.

[Preparatory actions at Nature Park Medvednica, Croatia](#)

July 2nd 2018 - Public Institution representatives and all relevant stakeholders of Nature Park Medvednica discussed challenges that this pilot area faces during winter ski season in order to define their Action Plan.

[2nd CEETO Technical meeting takes place in Lungau, Austria](#)

June 4th 2018 - The workshop hosted by the UNESCO Biosphere Reserve Salzburger Lungau, Austria, was an opportunity for project partners and Park technicians to learn more on participatory processes, define their objectives and deepen in the use of tools for the implementation of CEETO project pilot actions.

Events

Charter Network Meeting - 8th to 11th of April 2019, Greece

The XI European Charter Network Meeting will focus on "the social and cultural impacts of tourism, exploring a Sustainable response" and will take place from the 8th to the 11th of April

2019 in Tzoumerka, Acheloos Valley, Agrafa and Meteora National Park - Pramanta town, Greece.

The event is dedicated to all the Parks that are implementing the Charter for Sustainable Tourism in Protected Areas and to all those Parks that want to improve the sustainable tourism in their area.

There will be workshops sessions with examples from the Charter for Sustainable Tourism network, with room to bring your questions, case studies, project proposals, and your own examples. The agenda also includes a full day for field trips with hikes to Syrrako village, rafting in Arachthos river and many more. Finally, the Post conference excursions will visit the rest of the National Park. Updates will be posted in [EUROPARC website](#), [Facebook](#) and [Twitter](#) channels.

ABOUT CEETO

CEETO, or *Central Europe Eco-Tourism: tools for nature protection* is an interregional cooperation project developed with the support of the EU European Regional Development Fund and composed by 11 project partners:

- Emilia-Romagna Region – Protected Areas, Forestry and Mountains Development Department, Italy.
- EUROPARC Federation, Germany.
- UNESCO Biosphere Reserve Salzburger Lungau, Austria.
- Soelktaeler Nature Park, Austria.
- NIMFEA Environment and Nature Conservation Association, Hungary.
- Authority for the Biosphere Reserve South East Ruegen, Germany.
- Italian Federation of Parks and Nature Reserves - EUROPARC Italy, Italy.
- Regional Development Centre Koper, Slovenia.
- Public Institution Nature Park Medvenica, Croatia.

- Public Institute Landscape ParkStrunjan, Slovenia.
- WWF ADRIA - Association for Nature Protection and Biodiversity, Croatia.

Additionally, the project counts with six Advisory partners and aims to protect and enhance the natural heritage of Protected Areas and Natura 2000 Network by promoting an innovative sustainable tourism planning model.
