

Critical points	Purposes of the Pilot Actions					
Unsustainable accessibility, with consequent negative externalities (congestion of the road and parking areas, environmental and acoustic pollution, impact on climate, violations of the rules of the road, obstacle to the passage of emergency vehicles)	To promote sustainable accessibility, instead of the private car					
Low accessibility and inclusion for visitors with disabilities	To enhance the possibilities of fruition of the territory by visitors with disabilities					
Limited knowledge of the visitor profile in terms of number, origin, behavior, mobility preferences, awareness of being in a Protected Area and knowledge of the specific code of conduct	To acquire a better knowledge of the characteristics, choices and level of awareness of visitors regarding the naturalistic specificities					
Inappropriate behavior of visitors, due to a lack of knowledge of the particularities of the Protected Area or an insufficient respect of its natural value	To increase the knowledge of the visitors about the specificity and the nature delicacy of the Protected Area and to empower visitors about their behavior, by an adequate information on the correct rules of conduct					
Relevant concentration of the Park visitors in few sites	To promote the visit to less known and less frequented sites within the Park					
Partial knowledge by visitors of the overall tourist offer of the Protected Area	To improve the tourist promotion by informing on the global offer (sports and recreational activities, accommodation, restaurant, paths)					
Perfectibility of the overall tourist offer of the Protected Area	To enhance the possibilities of fruition of the Protected Area according to environmental sustainability criteria					
Limited knowledge of the actual impact of the tourist pressure on the Protected Area	To inspect and analyse the effects of the turistic presence on the natural environment and habitat					
Low participation of the local stakeholders in designing the tourist offer of the Protected Area in concerted terms	To create opportunities for local public and private stakeholders to meet and discuss, in order to promote participatory planning processes
