

D.T3.3.4 REPORTS ABOUT SERVICE EXPORT OPPORTUNITIES AND REGIONAL SUPPORT POSSIBILITIES

CCIS (SLO)

Version 1
02 2022

Each project-BSO develops a report for its own country about service export opportunities and regional support possibilities for AMs. Report target group: policy makers.

Actions to achieve these visions for artificial intelligence within the companies are:

- Promoting both the development of science and research in priority areas and transfer research achievements for a highly competitive economy.
- Striving for good cooperation with knowledge institutions and other companies.
- Promoting the internationalization of companies with foreign direct investment and integration into global value chains and the involvement of research organizations in international environment.
- Providing a stimulating and predictable supportive environment, systems standardization, accreditation, and metrology.
- Analysis of market opportunities and trends in the field of AI.
- Development of an environment for creating trends in the field of AI.
- Identification of funding sources that promote the development and implementation of IM.
- Effective management of state-owned enterprises.
- Creating quality jobs that create higher added value.
- Support for employee training programs (courses, seminars) for the acquisition of new knowledge, skills and professional qualifications in the field of AI (re-skilling).
