**Collaboration between public bodies
and citizen energy groups in
implementing local energy strategies
in Central Europe**

Clean energy matters!

**Let your voice be heard
and get involved!**

GENERAL PROJECT INFORMATION

IMPLEMENTATION PERIOD 01.04.2019. – 30.06.2022.

TOTAL BUDGET 1.830.574,50 €

EU CONTRIBUTION 1.516.811,19 €

SPECIFIC OBJECTIVES

- Citizen engagement in creating local energy strategies
- Development and testing of a toolbox set for public authorities for increasing citizens participation
- Co-creation of local energy cooperatives and citizen energy groups

TARGET GROUPS

- Local and regional public authorities
 - Sectoral agencies
- Infrastructure and public service providers
 - Interest groups including NGOs
- Higher education and research organisations
 - Small and medium enterprises
 - Business support organisations
 - General public

ACHIEVED RESULTS

- Citizen involvement in the process of planning, development and revision of local energy plans and other strategic documents in energy sector ensured
- Achieved contribution to sustainable regional development through the implementation of specific pilot projects in 6 different regions of Central Europe
- A toolbox to support local governments in the process of more active citizen involvement developed
- Development of Sustainable Energy and Climate Action Plans and other local energy plans
- Improved managerial competences of local government employees in charge of defining innovative energy policies and programs

PILOT ACTIVITIES CARRIED OUT IN CROATIA

Establishment of citizen energy group „Green Energy Club Prelog“

The goal of the group is to develop energy-independent community, promotion of renewable energy sources, improvement of sustainable development and encouragement of social innovation and entrepreneurship.

Installation of PV power plant on the roof of kindergarten „Fijolica“ in Town of Prelog

This investment with the total value of 55.950,00€ was selected by citizens and newly established citizen energy group “Green Energy Club Prelog» in order to stimulate additional interest among citizens and local companies investing in renewable energy sources.
