

D.T1.4.3 - DEFINITION OF POTENTIAL POLICY MEASURES

Work paper

Version 1.0
6.2021

1) Introduction

The main need refers to the simplification of the Italian procurement rules in order to streamline the implementation of the works included in the priority list of actions.

2) List of policy measures (linked to Priority list of action - D.1.4.2)

| Action/measure (from deliverable 1.4.2) | Policy measure | Policy document to be addressed | Process description | Stakeholders involved | Time frame |
|---|----------------|--|--|--------------------------|---------------|
| Upgrade of the Campo Marzio station | Administrative | D.Lgs. 50/2016 (law on public tenders) | The D.Lgs. 50/2016 includes the rules for public tenders. The current system is too complicated and needs simplifying. | Ministry of Transport | 1 year |
| Reactivation of the railway siding linking the Aquilinia station with the "ex-Wartsila" and "ex-Aquila" areas | Administrative | D.Lgs. 50/2016 (law on public tenders) | The D.Lgs. 50/2016 includes the rules for public tenders. The current system is too complicated and needs simplifying. | Ministry of Transport | 1 year |
| Reactivation of the railway siding linking Aquilinia and Muggia stations | Administrative | D.Lgs. 50/2016 (law on public tenders) | The D.Lgs. 50/2016 includes the rules for public tenders. The current system is too complicated and needs simplifying. | Ministry of Transport | 1 year |
| Construction of new railway gates | Administrative | D.Lgs. 50/2016 (law on public tenders) | The D.Lgs. 50/2016 includes the rules for public tenders. The current system is too complicated and needs simplifying. | Ministry of Transport | 1 year |

3) Process

It was not necessary to involve stakeholders in the identification of policy measures, since there is wide consensus on what needs to be done.

The main obstacles would be the resistance to the changes needed.

4) Conclusion

The main obstacle to the full implementation of the priority measures is the current national law on public procurement.

This law needs to be changed, ensuring simplification of procedures allowing clear deadlines and timeframe for the finalisation of public tenders.
