 SMACKER Scientific Event  
online (ex Maribor) | 10.11.2020

 **Experiences from SMACKER regions**

 SMACKER | BOKU - Institute for transport studies | Roman Klementschtz

# Demand responsive transport in low population density areas

## Experiences from SMACKER regions

- Bologna
- Gdynia
- Prague
- Murska Sobota
- Budapest
- East Tyrol

LOCATION OF PROJECT PARTNERS & PILOT ACTIONS

## Experiences from SMACKER regions

- Starting point (existing supply, challenges, problems)
- Experiences with DRT (or other solutions on sustainable mobility)
- Planned action and how the SMACKER pilot action will contribute?
- Expected results because of your SMACKER pilot action?
- Open aspects. What would be the next steps?

 **Experiences from SMACKER regions**

 SMACKER | BOKU - Institute for transport studies | Roman Klementschtz

# Wrap up - Experiences from SMACKER regions

## Starting point / experiences

- The majority of the regions do have already experiences with DRT-services
- Combining new and conventional forms of sustainable mobility becomes an aspect in planning
- Existing gaps for seamless sustainable mobility

# Wrap up - Experiences from SMACKER regions

## Expectations / open aspects

- Bringing the information to the (potential) users
- Mobility as a service
- E-mobility
- Vision of a car free peripheral/rural area (supply side)
