

# DT3.1.3 REPORT ON BUSINESS INSIDER & COLLABORATIVE WORKSHOPS BETWEEN PARTNERS AND S3 MANAGERS

---

Interview at Moreno Da Ros  
Veneto Region s3 manager

062022

## Transform4.0

### INTERVIEW TO DR. MORENO DA ROS, S3 MANAGER VENETO REGION

The interview with Dr. Da Ros took place via videocall, exploiting the common activities related to various projects (Tarsfarm 4.0, Sensorbim, Investinfish, Nuclei, Urban Digital Center Rovigo, etc.).

We solicited the discussion by trying to get from dr. Da Ross some contributions on the Interreg Transform project dedicated to precision agriculture.

In particular, we tried to obtain useful information in order to elaborate the deliverable that envisages the vision of the Veneto Region, and specifically the strategies / actions envisaged by S3 on the topic of precision agriculture.

Specifically, we underlined the need for a contribution with respect to the actions of the S3 connected to precision agriculture and where there were also the appropriations dedicated to these actions.

Dr Da Ross specified that the development trajectories related to precision agriculture can be found in the "fine tuning" document at the link <https://www.innoveneto.org/ris-3-veneto-2021-2027/ris-3-Veneto/> with particular reference to page 46 of the document.

However, Dr. Da Ros specifies that the trajectories of the current RIS3 are being revised / updated with the entrepreneurial discovery process currently underway and present on the dedicated page of Innoveneto.org <https://www.innoveneto.org/ris-3-veneto-2021-2027/>. The meeting has been the occasion to bring the results and the point of view of the different actors of the production chain to the attention of the RIS3 manager. Dr DaRos showed interest in the dynamics and experience emerged during the project.

Finally, it is useful to mention an interesting series of very recent actions that the state is promoting at a national level to incentivize investments in technology for agriculture, going perfectly in the same direction as the S3 policies for the promotion of development trajectories. In particular, reference is made to LOST FUND GRANTS FOR AGRICULTURAL ENTERPRISES PROVIDED BY THE FUND FOR INNOVATIVE INVESTMENTS OF AGRICULTURAL ENTERPRISES, TAX CREDIT, NUOVA SABATINI, INAIL 2022 CALL, AGRICULTURAL FINANCIAL LEASING.
