

THEMATIC WORKSHOPS: PROVIDING GUIDANCE ON PROJECT IDEAS

Draft Agenda

7 and 8 November 2017
Don Giovanni, Vinohradská 157a
Prague | Czech Republic

THEMATIC WORKSHOPS: PROVIDING GUIDANCE ON PROJECT IDEAS

Objective and audience

The Interreg CENTRAL EUROPE thematic workshops will take place back to back in Prague (Czech Republic) on 7 and 8 November 2017 offering a **mix of theoretical and practical inputs for advanced applicants** who want to get **thematic feedback on and visibility for their project ideas**.

Technical issues will be covered only briefly in the workshops. It is important to come to the workshops prepared. In addition to the application package, the programme will publish webinars and tutorials closer to the event covering important issues of project and budget development. Please check regularly the relevant web pages at www.interreg-central.eu/apply.

It is recommended to **already submit a project idea** to the Interreg CENTRAL EUROPE online community **before you register**. Ideas submitted to the programme online community do not have to be published online if preferred. The community can be accessed at www.interreg-central.eu/community.

Participants should be willing to pitch their project idea in front of the workshop audience. Concrete feedback will be provided by experts on each pitched idea, helping thus to improve these further. A randomised approach will be taken within the workshops for choosing the ideas to be pitched. However, **preference will be given to project ideas previously submitted** to the programme. Details about pitches are available at www.interreg-central.eu/Content.Node/events/howtopitch.html.
